Subject: Niagara Falls Boulevard-GNBC Core drilling Wednesday September 14th

Thanks Bill. Correction, we will have the drill on Wednesday, September 14th and do that core work. We will most likely pull the soil samples on Thursday.

Thanks

Good Afternoon:

I wanted to reach out to you both in regard to a few topics.

- On Thursday, September 15th, we will need to perform a few core drilling holes in what we call ST-5 (See attached Figure).

- On Friday, September 16th we will take soil samples.

This was work we held off until we mobilized the core drill again and had time.

Please let me know if you have any questions.
